

Dear WCSD Staff and Families,

We continue to dive deeper into our reopening plans to develop a model that will safely support teaching and learning. I appreciate the emails from families who are sharing their thinking about our draft plan. I want to assure you we are listening. I can see from these communications that opinions are diverse. Our goal is to develop a plan that offers families options and is flexible and adaptable, while also providing high-quality instruction to students in a safe learning environment. I hope you will join us on July 15th at 8:30 AM when we share the next iteration of our plan with the governing board. Meeting access information will be provided with agenda publication next week.

I am also eager to share a new opportunity that is now available to our families. Contra Costa County Office of Education announced a partnership with Contra Costa Television to support distance learning with televised elementary math lessons. In a press release on June 26th they shared, “ Video math lessons for grades Kindergarten through Five open with a “Number Talk” followed by a lesson and practice provided courtesy of Khan Academy. The lessons range in duration from 10 minutes to 15 minutes depending on the grade level, and are offered in English and Spanish. The balance of each half-hour time block will be filled with local programming provided by Contra Costa Library Services and East Bay Regional Parks.” You can access the lessons beginning June 29 on the county’s public access education channel (edTV). edTV can be seen throughout most of Contra Costa County on Comcast Cable Ch. 32 and AT&T U-Verse Ch. 99. CCTV is a public service of the Contra Costa County Board of Supervisors. Lessons will repeat each afternoon starting at 2:00 p.m., and will also be available on the [CCCOE YouTube channel](#). I think you will find this to be a great opportunity to support our students during the summer weeks.

I hope you enjoy our beautiful weather and have a wonderful long weekend with your families.  
Happy 4th of July!

Warmly,  
Marie Morgan  
Superintendent
